MiKTeX 2.9 Net Installer (32-bit) [Close]

**Copying Conditions**  
MiKTeX is freely redistributable under certain conditions.

*The following article is an adaption of the article "Copying conditions for TeX Live" (reference given at the end).*

## Copying conditions for MiKTeX

To the best of our knowledge, all software in the MiKTeX distribution is freely redistributable (libre, that is, not necessarily gratis), within the Free Software Foundation's definition and the Debian Free Software Guidelines. Where the two conflict, we generally follow the FSF. If you find any non-free files included, please contact us (reference given at the end).

I accept the MiKTeX copying conditions.

## MiKTeX 2.9 Net Installer (32-bit)

### Task

Choose the task you want carried out.

Download MiKTeX

MiKTeX will be downloaded into a directory on your computer.

Connection Settings...

Install MiKTeX

MiKTeX will be installed from a directory on your computer.

< Back

Next >

Cancel

**Package Set**

Select the packages you want installed.

Basic MiKTeX

A directory will be created which contains the basic MiKTeX distribution.

This is the recommended option. MiKTeX can be configured to install missing packages automatically (in the course of use).

Complete MiKTeX

A directory will be created which contains the complete MiKTeX distribution.

Don't use this option unless you have a fast and reliable Internet connection.

**SIMPLE**

**TYPESETTING**

- `\documentclass{article}`
- `%\usepackage{amsmath}`
- `%\usepackage{amsthm}`
- `\begin{document}`
- 
- This is my `\emph{first}` document prepared in `\LaTeX`.
- 
- I typed it on `\today`.
- 
- We have seen that to typeset something in `\LaTeX`, we type in the text to be typeset together with some `\LaTeX` commands. Words must be separated by spaces and lines may be broken arbitrarily.
- 
- The end of a paragraph is specified by a `\emph{blank line}` in the input. In other words, whenever you want to start a new paragraph, just leave a blank line and proceed.
- 
- `\noindent` The end of a paragraph is specified by a `\emph{blank line}` in the input. In other words, whenever you want to start a new paragraph, just leave a blank line and proceed.
- `\end{document}`

- `\documentclass{article}`
- `\begin{document}`
- I think `\LaTeX` is fun.
- I think `\LaTeX \` is fun.
- Note the difference in right and left quotes in `\lq` single quotes `\rq` and `\lq\lq` double quotes `\rq\rq`.
- Note the difference in right and left quotes in `\lq` single quotes `\rq` and `\lq\lq` double quotes `\rq\rq`.
- X-rays are discussed in pages 221--225 of Volume 3---the volume on electromagnetic waves.
- `\end{document}`

- `\documentclass{article}`
- `\begin{document}`
- Maybe I have now learnt about 1% of `\LaTeX`.
- 
- Maybe I have now learnt about 1\% of `\LaTeX`.
- `\textasciitilde`, `\#`, `\$`, `\%`, `\textasciicircum`, `\&`,  
`\_`, `\textbackslash`, `\{`, `\}`
- 
- `\end{document}`

Graph theory is one of the most powerful mathematical tool for designing and analyzing topological structure of interconnection networks.  $\ll[10pt]$  It is applied in diverse areas such as social sciences, linguistics, physical sciences, communication engineering and so on. It plays an important role in several areas of computer science, such as switching theory and logic design, parallel computing, artificial intelligence, formal languages, computer graphics, operating systems, compiler writing and information organization and retrieval.

A connection pattern of the components in a system is called interconnection networks or networks in short. An interconnection network consists of hardware and software entities that are interconnected to facilitate efficient computation and communication. These entities can be in the form of processors, processes, memory modules or computer systems.

# ASSIGNMENT

Download and install MikTeX and create a two page document which includes all the simple typesetting commands along with fonts and pagestyle that you have learnt today. Zip the folder which contains the document and mail us at [mathssmc2020@gmail.com](mailto:mathssmc2020@gmail.com) before your next session.

Thank You!
