CONSULTANCY ON “BIODEGRADABLE AND NON-BIODEGRADABLE WASTE PRODUCTS”

Objectives:

1. To increase public awareness and understanding of the differences between biodegradable and non-biodegradable waste products, including their environmental impacts and proper disposal methods.
2. To promote effective waste management practices that focus on reducing, reusing, and recycling waste materials to minimize environmental harm.

Programme Outcome:

Upon successful completion of the programme, participants demonstrated a clear understanding of effective waste management practices, including proper segregation, recycling, composting, and disposal of biodegradable and non-biodegradable waste products. They were also able to accurately classify waste materials into biodegradable and non-biodegradable categories, contributing to more efficient waste collection, sorting, and processing efforts.
