CONSULTANCY ON "ART & CRAFT SALES"

Objectives:

The Art & Craft Sales Consultancy Programme was designed to enhance students' employment skills by integrating practical entrepreneurship training with their creative talents. The programme aimed to empower students by equipping them with the knowledge and skills necessary to succeed in the competitive world of art and craft sales. It focused on fostering innovation, creativity, and business acumen, enabling students to turn their artistic abilities into viable business opportunities.

Programme Outcome:

By the end of the consultancy programme, students had gained valuable experience in entrepreneurship through hands-on learning and practical application. They successfully developed and produced a wide range of craft items, including fancy products, traditional arts, and homemade goods. The programme not only enhanced their crafting skills but also provided them with the confidence and capability to market and sell their products effectively. Subsequently, students were well-prepared to pursue entrepreneurial ventures and contribute to the local economy.
