ASSOCIATION ACTIVITIES - PHYATES COMPETITION

Report:

The Department of Physics organized the PHYATES Competition with the aim of promoting scientific creativity and knowledge among students. The competition witnessed enthusiastic participation from students.

Objectives:

The competition aimed to train students to think innovatively and creatively, encouraging them to explore the diverse realms of physics.

Through engaging in challenging tasks and problem-solving activities, students were encouraged to extract and apply their theoretical knowledge to practical situations.

Students were provided with opportunities to learn effective planning and time management techniques essential for success in academic and professional pursuits.

Program Outcome:

The PHYATES Competition had several positive outcomes for the participating students: Participation in the competition contributed to the emotional well-being of students by boosting their self-esteem and confidence in their abilities.

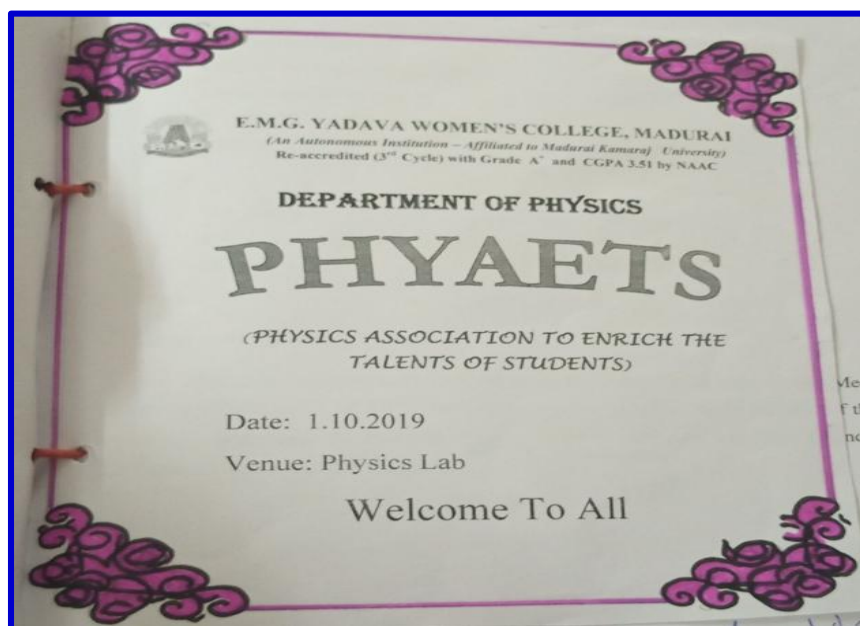

Students demonstrated resilience and perseverance, even in the face of failure, thereby building strong character traits essential for personal and professional growth.

Many students overcome stage fear and tackled various challenges during the competition, leading to the development of new skills and abilities.

The competition was a testament to the dedication and hard work of both the organizing committee and the participating students. It provided a platform for students to showcase their talents, exchange ideas, and foster a spirit of scientific inquiry and innovation.
