**GUEST LECTURE
RESEARCH AND DEVELOPMENT FUNDING SCHEMES**

Objectives:

To provide faculty with insights into various funding schemes and programs, sparking their enthusiasm for undertaking research projects.

Program Outcome:

The lecture ignited a keen interest among young teachers, encouraging them to advance scientific research and stay updated with the latest knowledge in their fields.

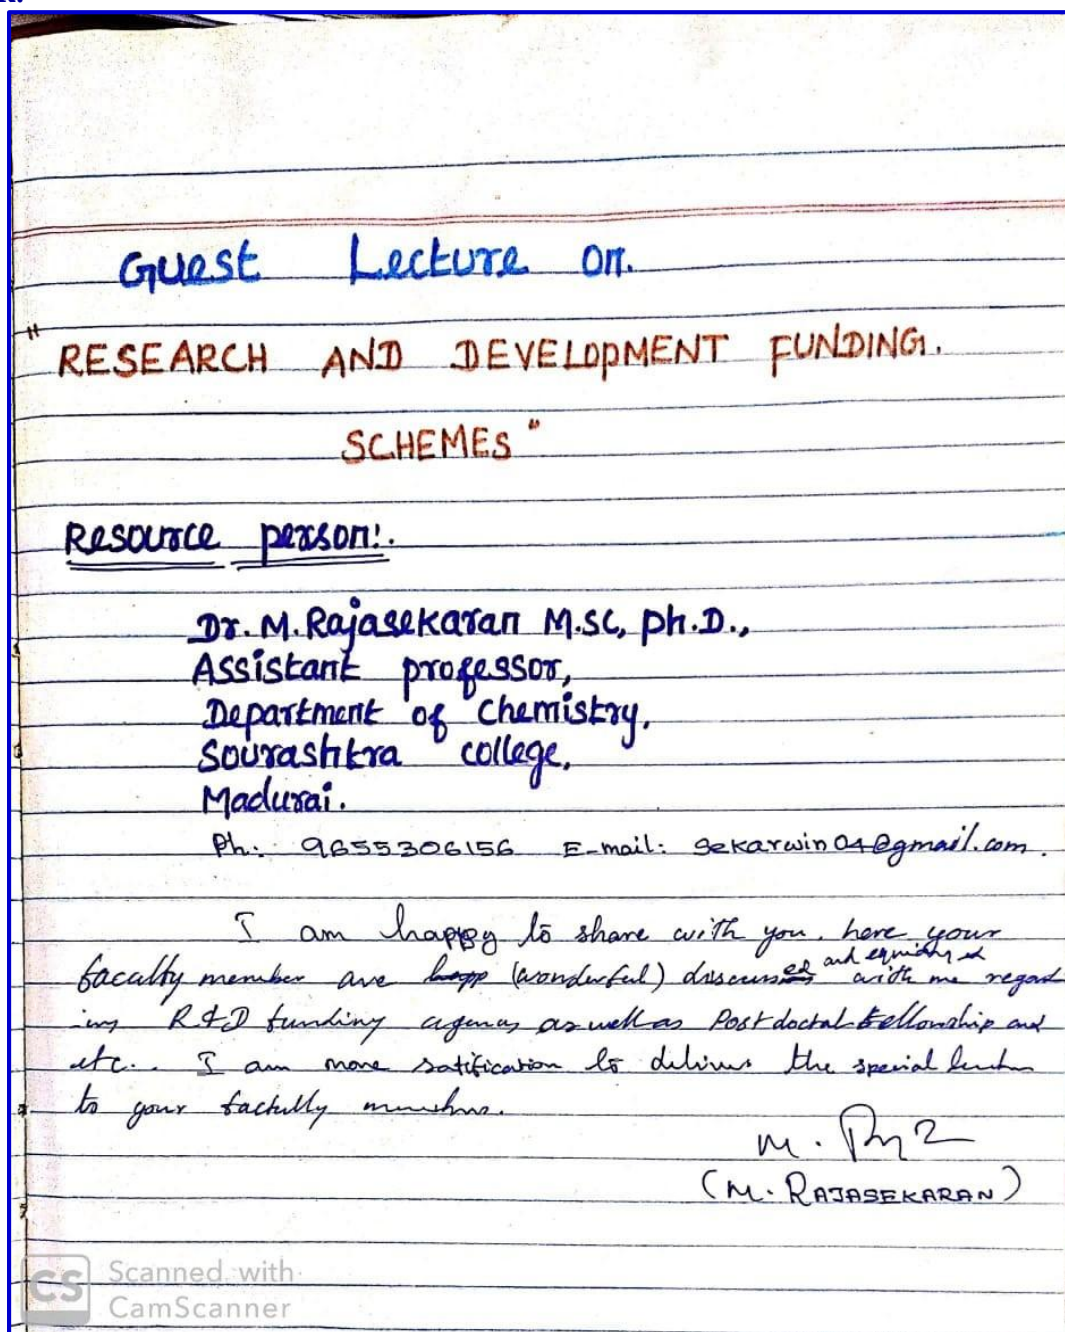

Program Highlights:

Comprehensive Overview: The guest lecture covered a wide range of national and international funding schemes available for research and development.

Application Strategies: Detailed guidance on how to prepare competitive grant applications, including proposal writing tips and common pitfalls to avoid.
Sharing of successful case studies where researchers secured significant funding, providing practical examples and inspiration.

The program successfully stimulated a passion for research among faculty members, equipping them with the necessary knowledge to explore funding opportunities actively. By understanding the diverse funding options and learning effective application strategies, teachers are now better prepared to pursue innovative research projects. This initiative not only aims to elevate the level of scientific inquiry within the institution but also ensures that educators remain at the forefront of their disciplines.
