CONSULTANCY ACTIVITY ON "DEMONSTRATE THE ANALYSIS OF INORGANIC SALT"

Objectives:

- To introduce the concept of salt formation through reactions between acids and bases.
- To help students understand the classification and properties of inorganic salts.
- To familiarize students with simple qualitative analysis techniques.
- To demonstrate the identification of unknown cations through practical experiments.
- To inspire interest in laboratory-based learning and scientific observation.

E.M.GOPALAKRISHNA KONE YADAVA WOMEN'S COLLEGE

Programme Outcome: By the end of the session, students were able to recognize the importance of acid-base reactions in salt formation, identify common cations in salts, and confidently perform basic laboratory techniques used in qualitative inorganic analysis. The hands-on experience sparked enthusiasm for further exploration in chemistry.
