DIETETIC INTERNSHIP

Objectives:

- To understand the general functioning of hospital dietary services.
- To gain practical exposure to diet planning and nutritional care in clinical settings.

Programme Outcome:

The dietetic internship provided students with hands-on training in hospital dietary routines and nutritional management for various health conditions. Interns observed and

assisted in planning therapeutic diets for patients with different medical needs, such as diabetes, hypertension, renal disorders, and post-operative recovery. They also learned about food service operations, patient counselling, and interdepartmental coordination. This real-world exposure enhanced their clinical competence and prepared them for future roles as dietitians and nutritionists in both national and international healthcare settings.
