| Participants           | Students - 50                                                                                                       |                                              |

**SEMINAR ON "SOFTWARE RE ENGINEERING"**

**Objectives:**

- To enhance the quality, performance, and maintainability of existing software systems.
- To familiarize students with the process of analyzing, restructuring, and updating legacy software.
- To introduce modern tools and techniques used in software re-engineering.

**Programme Outcome:**

- Students gained a solid understanding of the principles and practices of software re-engineering.
- They learned how to evaluate outdated software and apply techniques to improve functionality and maintainability.

## **E.M.GOPALAKRISHNA KONE YADAVA WOMEN'S COLLEGE**

- Students were equipped to participate in real-world projects involving software modernization and optimization.
