**CONSULTANCY SERVICE ON “MOBILE PHONE RADIATION”**

**Objectives:**

To raise awareness and educate individuals about the potential risks associated with mobile phone radiation and to encourage the reduction of mobile phone usage.

**Program Outcome:**

The program successfully achieved its goals by providing knowledge on reducing mobile phone usage to mitigate the impact on the environment and human health. Participants gained awareness of the potential risks of mobile phone radiation and understood the importance of limiting exposure for environmental and personal well-being.
