CONSULTANCY SERVICE ON "BLOOD GROUP ANALYSIS"

Objectives:

The objective was to analyze and report the blood groups of other students from various majors within our college.

Service Details:

Consultants:

Trained students from the Department of Zoology conducted the blood group analysis under the supervision of faculty members.

Procedure:

The students followed standard laboratory protocols to conduct blood group analysis for the students. Blood samples were collected, and tested, and the results were recorded accurately.

Outcome:

The blood group analysis consultancy service was conducted smoothly, and the results were reported promptly. The initiative provided an opportunity for the students to apply their knowledge and skills in a real-world setting while benefiting other students within the college community.

Feedback:

It is recommended to continue offering consultancy services such as blood group analysis periodically to promote practical learning and contribute to the well-being of the college community.

Reported Results:

The blood groups of the students from various majors within our college were analyzed.
