SEMINAR ON "ANIMATION"

Objectives:

- To equip students with the foundational knowledge and skills required for careers in computer animation and game development.
- To introduce the principles of animation, including character design, motion graphics, and visual storytelling.
- To familiarize students with industry-standard tools and software used in the animation field.

Programme Outcome:

- Students gained an understanding of the design process and techniques involved in creating animation products.
- They developed the ability to conceptualize, design, and produce basic animated content.
- The seminar provided a solid platform for students to explore further learning or career opportunities in animation and multimedia design.
