DIETETIC INTERNSHIP TRAINING

Objectives:

- To provide students with practical, hands-on experience in dietetics through internship training, enabling them to apply theoretical knowledge in real-world healthcare settings.
- To enhance students' understanding of nutritional assessment, diet planning, patient counseling, and dietary management of various medical conditions.

Programme Outcome:

- Upon completion of the internship, students will have developed the necessary skills and confidence to work effectively as professional nutritionists. They will be well-equipped

to provide dietary guidance, create individualized nutrition plans, and support patients in hospitals and healthcare facilities.

- The practical training prepares students for diverse career opportunities at local, national, and international levels, including roles in hospitals, clinics, wellness centers, and community health programs.
- Additionally, the internship fosters critical thinking, communication skills, and professional ethics, which are essential for successful practice in the nutrition and dietetics field. This hands-on experience significantly enhances their employability and readiness to contribute to public health and nutrition care.
