SOFTWARE ENGINEERING FRAMEWORK FOR PROJECT DEVELOPMENT

Objectives:

The main objective of this seminar is to introduce a structured software engineering framework that enhances team collaboration and project clarity. It aims to provide students with a comprehensive understanding of the software development lifecycle, helping them identify the core problems being addressed and align their efforts toward effective solutions.

Programme Outcome:

This seminar equips students with the ability to identify, formulate, and solve complex software engineering problems by applying foundational principles of engineering and computer science. It fosters analytical thinking, systematic development practices, and collaborative skills essential for successful project execution.
