BRIDGE COURSE

A Bridge Course in Chemistry was conducted to help students transition smoothly into advanced chemistry topics by reinforcing their foundational knowledge. The course focused on familiarizing students with basic terminology, core principles, and essential concepts in organic, inorganic, and physical chemistry. It served as a preparatory platform to boost student confidence and competence before engaging with higher-level content.

Objectives:

- To introduce students to fundamental terms and definitions used in chemistry.
- To strengthen their understanding of core principles across various branches of chemistry.

E.M.GOPALAKRISHNA KONE YADAVA WOMEN'S COLLEGE

- To build a strong conceptual base for future academic pursuits in chemical sciences.
- To improve familiarity with chemical nomenclature, symbols, and formulas.
- To encourage logical thinking and application of chemical concepts in problem-solving.

Programme Outcome:

By the end of the programme, students gained a clear understanding of the IUPAC naming system for organic compounds and developed foundational knowledge in both inorganic and physical chemistry, preparing them for more advanced studies.
