ENTRY LEVEL TEST - "KNOWLEDGE IN CHEMISTRY"

Objectives:

1. To assess the foundational chemistry knowledge of first-year B.Sc. Chemistry students.
2. To identify students' strengths and areas for improvement, ensuring that they are adequately prepared for the rigorous academic curriculum ahead.

Report:

The Entry Level Test titled "Knowledge in Chemistry "was meticulously designed to cover essential topics in chemistry, including general chemistry principles, basic organic and inorganic chemistry, and fundamental concepts in physical chemistry. Students were given 90 minutes to complete the test, which comprised multiple-choice questions.

Programme Outcome:

The analysis of the results offered meaningful insights into the students' comprehension and readiness, showcasing both their strong points and the areas that require improvement. In response, the department intends to arrange extra tutorial sessions and remedial classes to bridge any gaps in knowledge. This forward-looking initiative will strengthen students' fundamentals in chemistry, helping them achieve excellence in their studies. The test also fostered a sense of confidence and motivation among the students, creating an encouraging start to the academic year.
