PYTHON FREE COACHING CLASS

Objectives:

1. To introduce students to the fundamentals of Python programming and its applications.

2. To develop logical thinking and problem-solving skills through coding practices.
3. To enable students to write, test, and debug Python programs effectively.
4. To familiarize students with Python libraries and tools used in real-world applications.
5. To enhance students' employability skills by building a strong foundation in programming.
6. To encourage hands-on learning through practical sessions and project-based activities.

Programme Outcomes:

Upon completion of the Python Coaching Class, students were able to:

1. Understand the basic concepts and syntax of Python programming.
2. Apply logical reasoning and problem-solving techniques to develop simple to intermediate Python programs and efficiently write, test, and debug Python code using appropriate tools.
3. Utilize basic Python libraries for data handling and real-world problem-solving.
4. Develop confidence in coding and computational thinking, thereby enhancing employability and career readiness in programming and IT-related fields.
5. Demonstrate practical programming skills through hands-on exercises and mini projects.
